Re: No to photographs, video, web page

I do not wish _____ to be photograph, filmed.

During the 2008/ 2009 school year I will be taking photographs(digital), possibly filming a video of the students while they are at recess, during liturgies, sports events, school assemblies, in the classroom, working on fund-raisers, in essence capturing student life here at St. Joseph/Marquette.

The photographs will be used in the school's annual report, calendar, handbook, Legend newsletter, the school brochure and on our web pages. The video would be used for public relations and recruitment.
